ABOUT POPA

POPA is the only organization in the world dedicated solely to enhancing the Pilatus ownership experience.

POPA maintains a positive direct line of communication with the experts that build and maintain our aircraft. Representatives from Pilatus and the Authorized Pilatus Centers serve as advisors to POPA's Board of Directors, offering industry insight, guidance and support to our organization.

At POPA we work hard to make sure the value of your membership compliments the value of your Pilatus.

MEMBER BENEFITS

ANNUAL CONVENTION

This members-only event is packed with Pilatus-specific information. The Convention is a prime opportunity for you to attend two full days of educational sessions focused on becoming a safer pilot. It's also a great chance for you to meet other owners, pilots, Pilatus factory, dealer, and vendor representatives.

TRAINING PARTNERSHIPS

Through POPA's partnership with FlightSafety International, you can save money every time you train. This member-exclusive agreement for access to FSI's full-motion Level D PC-12 simulator is significant - saving you anywhere from 20-25% off standard rates.

For members that want to train in their own aircraft, POPA has partnered with SIMCOM Aviation Training to develop the PC-12 In-Aircraft Training Program available at member-exclusive rates.

ADVOCACY

We understand your aircraft. If concerns arise, POPA can act as a resource and work to obtain a resolution that benefits all of our members.

INSURANCE SAVINGS

Supplement your knowledge and skills with POPA's Pilatus Pilot Proficiency Program (PPPP). Earn your Certificate of Completion to save money on your insurance through one of our eight underwriting partners. Simply attend the Annual Convention, complete two ground courses and one additional flight course each year.

NEW OWNERS

New to the PC-12? The Transition Pilot Proficiency Program (TPPI) is designed for new owners and pilots transitioning to the PC-12. If you have less than 100 hours in the PC-12, you may be eligible for this free refresher course.

FUEL PROGRAMS

The POPA UVair Fuel Card provides you with additional discounts on fuel, flight planning and trip support services, with no minimum fuel uplift volumes or annual card fees.

POPA members that operate under Part-91 are also eligible to join the Corporate Aircraft Association (CAA). Preferred fuel pricing is available at FBOs that are part of the CAA-network.

WEBSITE ACCESS

Only POPA members have access to share and solicit information within the Members Forum, and download presentations, documents, charts and bulletins from the Knowledgebase.

POPA MAGAZINE

Our quarterly publication is filled with technical articles, interesting stories and useful advice for operating your airplane.

COMMUNITY

Become part of the largest Pilatus community in the world. You'll have an opportunity to network with other aircraft owners and pilots that share your love of the Pilatus product, as well as Pilatus factory and dealer personnel.

PILATUS MERCHANDISE

Enjoy POPA-exclusive discounts on Pilatus-branded merchandise.

Start enjoying the rewards of membership today!
