

About Us

PILATUS OWNERS AND PILOTS ASSOCIATION

POPA is the only organization in the world dedicated solely to enhancing the Pilatus ownership experience.

POPA maintains direct lines of communication with the experts who build and maintain your aircraft. Representatives from Pilatus and Authorized Pilatus Centers serve as advisors to POPA's Board of Directors, offering industry insight, guidance, and support to our organization.

At POPA, we work hard to make sure the value of your membership complements the value of your Pilatus.

BENEFITS

Annual Convention

This members-only event is packed with Pilatus-specific information. The convention is a prime opportunity for you to attend two full days of educational sessions focused on safety and operational knowledge. It's also a great chance to meet other owners, pilots, and Pilatus factory, dealer, and vendor representatives.

Training Partnerships

POPA's partnerships save you money on training, like our member-exclusive agreement with FlightSafety International: access to FSI's full-motion Level D PC-12 simulator is offered at rates that are significantly lower than retail. For members who want to train at SIMCOM Aviation Training, or in their own aircraft, POPA members receive exclusive rates for SIMCOM's in-aircraft programs.

Aviation Performance Solutions (APS)

POPA members receive a special discount and upgrade option at APS on Upset Prevention and Recovery Training (UPRT) to mitigate the number one fatal safety risk faced by every pilot: Loss of Control In-flight (LOC-I).

The Transition Pilot Proficiency Initiative (TPPI)

Flight Safety International, POPA's preferred training partner, offers TPPI specifically tailored for new PC-12 owners and pilots transitioning to this aircraft. If you have fewer than 150 hours in the PC-12, you might qualify for this complimentary program.

Hire A Pilot

FlyingCompany.com seamlessly connects PC-12 & PC-24 Operators with Contract Pilots.

Community

Become part of the largest Pilatus community in the world. You'll have an opportunity to network with other aircraft owners and pilots who share your love of the Pilatus product, as well as Pilatus factory and dealer personnel.

Advocacy

We understand your aircraft and your concerns. If issues arise, POPA can help act as a resource and work to obtain a resolution.

POPA Magazine

Our quarterly publication is filled with technical articles, interesting stories, and useful advice for operating your aircraft.

Library & Members Forum

A variety of resources are available in our online library. You'll find a listing of new and popular past featured articles on our website covering a variety of operational topics. You can download presentations, documents, charts, and bulletins from our Knowledgebase and access the Members Forum to share and solicit information from other pilots and operators.

Fuel Programs

The POPA World Fuel Card provides you with discounts on fuel, flight planning, and trip support services, with no minimum uplift or annual card fees. POPA members who operate under Part-91 are also eligible to join the Corporate Aircraft Association (CAA). Get preferred fuel pricing across their FBO-partner network.

Pilatus Merchandise

Enjoy POPA-exclusive discounts on Pilatus-branded merchandise through Pilatus and Sporty's.

POPA is an independent association comprised of, and directed by, owners, pilots, and operators of Pilatus-manufactured aircraft.
