Advanced Upset Prevention & Recovery Training

COURSE INFORMATION

The Advanced Upset Prevention and Recovery Course presents compelling real-world scenarios based on recent aircraft accidents, with emphasis on prevention, recognition and when needed, recovery techniques. The academic portion provides a thorough review of aerodynamics, early stall recognition techniques and enhancing new skills learned that are critical to safe operations. In the safe environment of the simulator, pilots experience loss of control in-flight and extreme high-speed events in a way that are far too dangerous to experience in an actual aircraft

COURSE MODULE	INITIAL	RECURRENT
Course Length	**1 Day**	**1 Day**
Ground School/Academics	4.0 hours	2.0 hours
Simulator for Single Pilot	2.0 hours	2.0 hours
Simulator for Crew of Two	4.0 hours	4.0 hours
Debriefing	0.5 hours	0.5 hours

INITIAL SIMULATOR TYPE BY LOCATION

- Atlanta, Georgia - King Air 350 Fusion
- Dallas North, Texas - Embraer EMB550, Falcon 2000EX EASy Series, Falcon 900EX EASy Series, Falcon 7X, G280, G550, G500/G600, G650
- Denver, Colorado - PC-12NG
- Long Beach, California - G550, G650
- Savannah, Georgia - G280, G450, G550, G500/G600, G650
- Teterboro, New Jersey - Falcon 2000EX EASy Series, Falcon 900EX EASy Series, Falcon 8X, King Air 350 PL21
- Wichita East, Kansas - King Air 200 PL21, King Air 350 PL21
- Wilmington, Delaware - G280, G450, G550, G500/G600, G650, GV

PREREQUISITE ADVANCED UPRT RECURRENT

The FlightSafety Initial Advanced UPRT course must be competed prior to enrolling into the Recurrent Advanced UPRT course.

RECURRENT SIMULATOR TYPE BY LOCATION

- Dallas North, Texas - Falcon 2000EX EASy Series, Falcon 7X, G280, G550, G650
- Long Beach, California - G550, G650
- Savannah, Georgia - G280, G550, G650
- Teterboro, New Jersey - Falcon 2000EX EASy Series
- Wilmington Delaware - G280, G550, G650

ADDITIONAL INFORMATION

The Initial version is a required course towards achieving the FlightSafety Master Aviator certification. The Master Aviator program is not available in all aircraft listed.
